

Framtidens Våtrum (och cirkulär ekonomi)

TEKNIQ ARBEJDSGIVERNE

Bathroom stay in buildings

- Still very important room
- Water always find its way out
- Water still must be controlled on its way to protect building elements
- New designs and materials effects the traditional routines

- How do we secure building from water damage?
- How do building partners know about the newest knowledge?
- The planning for next seminar has already started, and we need help

Reflexions from this seminar

- Take a summing with your neighbour about
 - the most important news you got in this seminar?
 - And an idea for a theme for next seminar
- You got 10 minutes
- If your idea is not on the table, please send it to one of the group members after the seminar
